

## Cairns® Traditional Composite Fire Helmets Comparison

### Cairns® 1010 Traditional

The Cairns® 1010 traditional fire helmet offers a tough, through color, DuraGlas® fiberglass and high-temp composite resists cracking and chipping and provides a perfect combination of durability and performance in a lightweight, high-performance design. Traditional style with high-tech performance.

- Non-corroding, high-temperature glass-filled faceshield/goggle hardware
- High temperature foam cap increases thermal and impact protection
- Higher temperature impact cap liner resists distortion at higher temperatures
- Rugged, high-temperature (TPR) edge trim will not melt or drip
- Soft black Nomex chinstrap features one-hand quick-release buckle and postman slide for quick removal and adjustment
- Nomex or PBI/Kevlar earlap for increased neck/ear coverage and protection
- Patented shell release increases neck and head protection
- Three-position rear ratchet height adjust for a secure and comfortable fit
- SCBA interface front headband adjustment matches the fit of any SCBA mask.
- Removable flannel or leather cushion liners
- Minimal parts for lower service cost and easier maintenance.
- 5-year shell replacement warranty
